

Competition Compliance Statement

Mondi Consumer Packaging GmbH ("**Mondi**") is going to organize an event "FlexForward open door event" to be held in Steinfeld, Germany, on 6 May 2026. The purpose of this event is to explore the packaging of tomorrow and showcase how Mondi drives future developments, helping customers bridge the gap between today's challenges and tomorrow's solutions. This event is clearly not intended to influence the competitive decisions of independent companies and their representatives attending this event, nor in any way to restrict competition among such companies / representatives or vis-à-vis third parties.

At the same time, Mondi is aware that this event brings together representatives some of which may compete against each other. While none of the items on our agenda are inclined to be competitively sensitive and there is certainly no attempt by Mondi to restrain competition in any manner, nevertheless Mondi recognizes the possibility that the event could be seen as a potential opportunity for anticompetitive conduct. For this reason, Mondi takes the opportunity, through this Competition Compliance Statement, to make clear its unequivocal support for the policy of competition served by the antitrust laws and its uncompromising intent to comply strictly in all respects with these laws:

1.

Mondi is fully committed to complying with its obligations under the applicable competition law regimes of the EU.

2.

Attendees at this event must not enter any discussion, activity or conduct that may, in any way, infringe applicable competition laws. They confirm to have understood and accepted this obligation by signing this Competition Compliance Statement.

3.

The obligation to adhere to competition laws pursuant to point 2 above includes, by way of example only, a commitment by attendees not to discuss, communicate or exchange any commercially sensitive information (whether before, during or after the event), including any non-public information relating to prices, capacities, costs, revenues, trading terms and conditions or purchasing strategies, or discuss taking collective action against any organization or third party in response to industry pressure.

4.

Attendees at this event are responsible for observing the requirements of competition laws. This implies that they should make themselves familiar with their legal obligations in case of doubt.
